Author Index

Abdullaev, Y.G. and Bechtereva, N.P.
Neuronal correlate of the higher-order semantic code in human prefrontal cortex in language tasks (14) 167
Abdullaev, Y.G., see Bechtereva, N.P. (14) 113 (Abstract)
Albee, R.R., see Spencer, P.J. (14) 5
Amabile, G., see Fattapposta, F. (14) 122 (Abstract)
Andreassi, J.L., see Rebert, C.S. (14) 1
Andreassi, J.L.
Psychophysiologists and the AIDS epidemic: can we help? (14) 99
Andreassi, J.L.
Psychophysiologists and the AIDS epidemic: can we help? (14) 99 (Vice-Presidential Address)
Anokhin, A. and Steinlein, O.
Genetic control of the human EEG rhythmic activity: implications for the study of gene → brain → behavior relationships (14) 111 (Abstract)
Arnold, A.G., see Wiethoff, M. (14) 154 (Abstract)
Arntz, A., see Merckelbach, H. (14) 137 (Abstract)
Arolt, V., see Verleger, R. (14) 153 (Abstract)
Aubert, E., see Olivares, E. (14) 140 (Abstract)

Bach, M., see Hartl, L. (14) 127 (Abstract)
Badia, P., see Lammers, W.J. (14) 134 (Abstract)
Baldeweg, T., see Grune, K. (14) 125 (Abstract)
Baldeweg, T., see Gruzelier, J. (14) 126 (Abstract)
Baldeweg, T., Stygall, J., Gruzelier, J., Pugh, K., Lovett, E., Catt, S., Irving, G., Riccio, M. and Catalan, J.
Psychophysiology of HIV disease: cross-sectional assessment of the St. Stephen's cohor study of gay men (14) 112 (Abstract)
Balzer, H.-U., see Rehberg, G. (14) 144 (Abstract)
Bárdos, G.
Interoception and role of pain and discomfort from the small and large intestine in rats (14) 112 (Abstract)
Barry, R.J. and Furedy, J.J.
Stimulus intensity and novelty interact in elicitation of the phasic electrodermal orienting response (14) 249
Barry, R.J., see Kaiser, J. (14) 130 (Abstract)
Barry, R.J., see VaezMousavi, S.M. (14) 152 (Abstract)
Barry, R.J., see Wilde, K.M. (14) 155 (Abstract)
Barry, R.J., Tremayne, P. and Burke, S.
Autonomic patterning in elite and novice pistol shooters in preparation for the shot (14) 112 (Abstract)
Barry, R.J., Wortmann, L.H. and Salter, G.
Correction of single-trial cardiac activity for respiratory sinus arrhythmia (14) 113 (Abstract)
Bartelli, M., see Zappoli, E. (14) 156 (Abstract)
Barthélémy, C., see Bruneau, N. (14) 116 (Abstract)
Başar-Eroglu, C.
Subcortical compound P300-40 Hz response in the cat brain (14) 113 (Abstract)
Bauer, U., see Gallhofer, B. (14) 123 (Abstract)
Bechtereva, N.P., Abdullaev, Y.G., Belov, M.A., Kostenikov, N.A., Medvedev, S.V., Netchaev, V.B., Rudas, M.S., Volskaya, R.V. and Vorobyev, V.A.
Thinking. Pet and neurophysiology-complementary studies (14) 113 (Abstract)
Bechtereva, N.P., see Abdullaev, Y.G. (14) 167
Bechtereva, N.P.
Psychophysiology and social events (14) 103
Bechtereva, N.P.
Psychophysiology and social events (14) 103
Belov, M.A., see Bechtereva, N.P. (14) 113 (Abstract)
Bener, J., see Kaiser, J. (14) 130 (Abstract)
Bergmann, H.-J., see Vossel, G. (14) 154 (Abstract)
Berlin, J., see Schwendner, H. (14) 148 (Abstract)
Berson, M., see Bruneau, N. (14) 116 (Abstract)
Besson, M. and Kutas, M.
Event-related potentials (ERPs) analysis of semantic priming, word repetition and memory-related differences (14) 113 (Abstract)
Besthorn, C., Schreiter-Gasser, U., Sattel, H., Geiger-Kabisch, C. and Gasser, T.
Quantitative EEG in senile and presenile Alzheimer patients (14) 114 (Abstract)
Beyer, L., see Hansen, E. (14) 126 (Abstract)
Beyer, L., see Leutert, B. (14) 135 (Abstract)
Beyer, L., see Meyer, K. (14) 137 (Abstract)
Beyer, L., see Plietz, M. (14) 142 (Abstract)
Beyer, L., see Weiss, T. (14) 154 (Abstract)
Beyer, L., Weiß, T., Hansen, E., Rost, R. and Meyer, K.
Central nervous activation as a psycho-physiological aspect of motor processes (14) 114 (Abstract)
Birbaumer, N., see Flor, H. (14) 122 (Abstract)
Birbaumer, N., see Rau, H. (14) 143 (Abstract)
Birbaumer, N., see Ray, W. (14) 143 (Abstract)
Birbaumer, N.
Slow brain potentials change behavior: from the laboratory to reality (14) 114 (Abstract)
Bjerring, P., see Zachariae, R. (14) 155 (Abstract)
Bobes, M.A., see Castellanos, M. (14) 117 (Abstract)
Bobes, M.A., see Olivares, E. (14) 140 (Abstract)
Bobes, M.A., Xiao-Lei, Z., Gonzales, A. and Valdes-Sosa, M.
Brain potentials during different matching task using chinese characters (14) 114 (Abstract)

Bode, M., see Verleger, R. (14) 153 (Abstract)
Bohdanecký, Z., Indra, M. and Radil, T.
Sensori-motor activity related to cardiac phase and heart rate (14) 115 (Abstract)
Bohdanecký, Z., see Radil, T. (14) 142 (Abstract)
Borgatti, R., see Montirosso, R. (14) 138 (Abstract)
Borkhardt, A., see Roth, N. (14) 145 (Abstract)
Boseniuk, T., see Schmitt, R. (14) 147 (Abstract)
Boucsein, W.
Psychophysiology in the workplace – Goals and methods (14) 115 (Abstract)
Boudreau, G., see Szabo, A. (14) 285
Bourriez, J.L., see Dujardin, K. (14) 255
Boyes, W.K., Hetzler, B.E. and Dyer, R.S.
Acute effects of ethanol on pattern reversal and flash-evoked potentials in rats and the relationship to body temperature (14) 27
Boyes, W.K., see Rebert, C.S. (14) 49
Breault, C. and Ducharme, R.
Effect of intertrial intervals on recovery and amplitude of electrodermal reactions (14) 75
Brener, J., Mitchell, S. and Slifkin, A.
Rescaling the peak force of isometric responses (14) 115 (Abstract)
Bringas Vega, M.L., Rodriguez-Mena, M. and Virues, T.
Phasic electrodermal activity and cortical initiation (14) 115 (Abstract)
Bringas Vega, M.L., see Rodriguez-Mena, M. (14) 145 (Abstract)
Bringas Vega, M.L.
Event-related potentials to familiar and unfamiliar faces (14) 116 (Abstract)
Bruneau, N., Duyck, E., Roux, S., Berson, M., Barthélémy, C. and Lelord, G.
Dynamic blood flow modifications and electrophysiological responses to auditory stimulations in children (14) 116 (Abstract)
Brunia, C.H.M. and Damen, E.J.P.
Stimulus preceding negativity in a non-feedback situation (14) 116 (Abstract)
Burgess, A. and Gruzelier, J.
Localisation of cerebral functioning during the Luria Finger apposition task: a preliminary validation study of topographical mapping of EEG (14) 117 (Abstract)
Burgess, A. and Gruzelier, J.
Topographical reliability of quantitative EEG for individuals and for group data (14) 117 (Abstract)
Burgess, A., see Gruzelier, J. (14) 126 (Abstract)
Burke, S., see Barry, R.J. (14) 112 (Abstract)
Burnod, Y., see Guigon, E. (14) 111 (Abstract)
Büsch, D., see Olivier, N. (14) 140 (Abstract)
Busjahn, A. and Johannes, B.
Interrelations between external time-pressure and type-a behaviour pattern in a laboratory mental load task (14) 117 (Abstract)

Caffier, G., see Rehfeldt, H.-M. (14) 144 (Abstract)
Cammann, H., see Michel, J. (14) 138 (Abstract)
Capellaro, F., see Discalzi, G. (14) 21
Castellanos, M., Bobes, M.A. and Valdes-Sosa, M.
ERP negativity related to conceptually-driven processing (14) 117 (Abstract)
Catalan, J., see Baldeweg, T. (14) 112 (Abstract)
Catalan, J., see Gruzelier, J. (14) 126 (Abstract)
Catt, S., see Baldeweg, T. (14) 112 (Abstract)
Catt, S., see Gruzelier, J. (14) 126 (Abstract)
Chiarenza, G., see Fattapposta, F. (14) 122 (Abstract)
Christiani, K., see Göbel, H. (14) 123 (Abstract)
Clifford, Jr., J.O. and Williston, J.S.
The effects of attention and context on the spatial and magnitude components of the early responses of the event-related potential elicited by a rare stimulus (14) 209
Collet, C., Delhomme, G., Deschaumes-Molinaro, C., Dittmar, A. and Vernet-Maury, E.
Autonomic responses during motor programming (14) 118 (Abstract)
Collet, C., see Dittmar, A. (14) 120 (Abstract)
Connolly, K.J., see Manoel, E.J. (14) 136 (Abstract)
Cordischi, M.V., see Fattapposta, F. (14) 122 (Abstract)
Cornelissen, G., see Fiser, B. (14) 122 (Abstract)
Cornelissen, G., see Siegelová, J. (14) 149 (Abstract)
Côté, L., see Szabo, A. (14) 285
Crawford, H.J., Kapelis, L. and Harrison, D.
Facial affect perception asymmetry: waking and hypnosis performance in low and high hypnotizables (14) 118 (Abstract)
Crawford, H.J., Pribram, K., Kugler, P., Xie, M., Zhang, B. and Knebel, T.
EEG and somatosensory evoked potential brain topographical changes during suggested hypnotic anesthesia (14) 118 (Abstract)
Crawford, H.J., see De Pascalis, V. (14) 141 (Abstract)

Dahme, B.
Interoception of airways obstruction: methods and results from asthmatic patients and normal controls (14) 118 (Abstract)
Dalbokova, D. and Kolev, P.
Variations in P300 component and some psychophysiological indices under sleep deprivation (14) 119 (Abstract)
Dalbokova, D., see Kolev, P. (14) 132 (Abstract)

Key Word Index

Active processing
Model-comparator theory; Passive processing; Context; Dipole trajectory; Vector magnitude (Clifford, Jr., J.O. (14) 209)

Acute exposure
4-*tert*-Butyltoluene; Auditory-evoked potential; Body temperature; Diurnal variation; Event-related potential; Flash-evoked potential (Lund, S.P. (14) 41)

Adaptive segmentation
Space-oriented EEG segmentation; Classification of field map configurations; Brain functional microstate (Wackermann, J. (14) 269)

Aging
P300; Event-related potential; Information processing (Dujardin, K. (14) 255)

Amplitude
Intertrial interval; Recovery; Electrodermal response; Methodology; Repeated trial; Baseline (Breault, C. (14) 75)

Anxiety
Blood pressure; Epinephrine; Exercise; Heart rate; Mood; Norepinephrine; (Human) (Szabo, A. (14) 285)

Aphasia
Speech; Metabolism; Emission tomography (Tamas, L.B. (14) 199)

Auditory brainstem response
Environmental enrichment; Evoked potential; Guideline test; Flash evoked potential; Somatosensory evoked potential; Motor activity; Grip strength (Spencer, P.J. (14) 5)

Auditory-evoked potential
4-*tert*-Butyltoluene; Acute exposure; Body temperature; Diurnal variation; Event-related potential; Flash-evoked potential (Lund, S.P. (14) 41)

Baseline
Intertrial interval; Recovery; Amplitude; Electrodermal response; Methodology; Repeated trial (Breault, C. (14) 75)

Blood pressure
Cardiovascular reactivity; Cardiac output; Total peripheral resistance (Sherwood, A. (14) 81)

Anxiety; Epinephrine; Exercise; Heart rate; Mood; Norepinephrine; (Human) (Szabo, A. (14) 285)

Body temperature
Ethanol; Visual evoked potential; Rat (Boyes, W.K. (14) 27)

4-*tert*-Butyltoluene; Acute exposure; Auditory-evoked potential; Diurnal variation; Event-related potential; Flash-evoked potential (Lund, S.P. (14) 41)

Brain functional microstate
Space-oriented EEG segmentation; Adaptive segmentation; Multichannel EEG; Classification of field map configurations (Wackermann, J. (14) 269)

Brain-mind problem
Consciousness; EEG-mapping (Ivanitsky, A.M. (14) 179)

Brainstem auditory evoked potential
Central nervous system dysfunction; Subclinical neuropathy; Lead; Mercury (Discalzi, G. (14) 21)

4-*tert*-Butyltoluene
Acute exposure; Auditory-evoked potential; Body temperature; Diurnal variation; Event-related potential; Flash-evoked potential (Lund, S.P. (14) 41)

Cardiac output
Cardiovascular reactivity; Blood pressure; Total peripheral resistance (Sherwood, A. (14) 81)

Cardiovascular reactivity
Blood pressure; Cardiac output; Total peripheral resistance (Sherwood, A. (14) 81)

Long-term stability; Impedance cardiography (Llabre, M.M. (14) 241)

Central nervous system dysfunction
Brainstem auditory evoked potential; Subclinical neuropathy; Lead; Mercury (Discalzi, G. (14) 21)

Classification of field map configurations
Space-oriented EEG segmentation; Adaptive segmentation; Multichannel EEG; Brain functional microstate (Wackermann, J. (14) 269)

Cognitive task
Human brain; Prefrontal cortex; Implanted electrode; Neuronal activity; Language; Semantic encoding (Abdullaev, Y.G. (14) 167)

Combined effect
Solvent; Ototoxicity; Rat; Interaction (Rebert, C.S. (14) 49)

Computer simulation
Law of initial values (Jamieson, J. (14) 233)

Conscious alteration of breathing
Middle latency auditory-evoked potential; Yoga; Modifications of neural processing in yoga (Telles, S. (14) 189)

Consciousness
Brain-mind problem; EEG-mapping (Ivanitsky, A.M. (14) 179)

Context
Model-comparator theory; Passive processing; Active processing; Dipole trajectory; Vector magnitude (Clifford, Jr., J.O. (14) 209)

Dipole trajectory
Model-comparator theory; Passive processing; Active processing; Context; Vector magnitude (Clifford, Jr., J.O. (14) 209)

Diurnal variation
4-*tert*-Butyltoluene; Acute exposure; Auditory-evoked potential; Body temperature; Event-related potential; Flash-evoked potential (Lund, S.P. (14) 41)

EEG-mapping
Consciousness; Brain-mind problem (Ivanitsky, A.M. (14) 179)

EEG spectral analysis
Extremely low frequency magnetic fields (ELF); Evoked potential; Reaction time (Lyskov, E. (14) 227)

Electrodermal activity
Orienting response; Stimulus intensity; Stimulus novelty; Habituation (Barry, R.J. (14) 249)

Electrodermal response
Intertrial interval; Recovery; Amplitude; Methodology; Repeated trial; Baseline (Breault, C. (14) 75)

Emission tomography
Speech; Metabolism; Aphasia (Tamas, L.B. (14) 199)

Environmental enrichment
Evoked potential; Guideline test; Flash evoked potential; Somatosensory evoked potential; Auditory brainstem response; Motor activity; Grip strength (Spencer, P.J. (14) 5)

Epinephrine
Anxiety; Blood pressure; Exercise; Heart rate; Mood; Norepinephrine; (Human) (Szabo, A. (14) 285)

Ethanol
Visual evoked potential; Body temperature; Rat (Boyes, W.K. (14) 27)

Event-related potential
4-*tert*-Butyltoluene; Acute exposure; Auditory-evoked potential; Body temperature; Diurnal variation; Flash-evoked potential (Lund, S.P. (14) 41)

Prefrontal; P300; Stimulus categorization (Nasman, V.T. (14) 61)

P300; Aging; Information processing (Dujardin, K. (14) 255)

Evoked potential
Environmental enrichment; Guideline test; Flash evoked potential; Somatosensory evoked potential; Auditory brainstem response; Motor activity; Grip strength (Spencer, P.J. (14) 5)

Extremely low frequency magnetic fields (ELF); EEG spectral analysis; Reaction time (Lyskov, E. (14) 227)

Exercise
Anxiety; Blood pressure; Epinephrine; Heart rate; Mood; Norepinephrine; (Human) (Szabo, A. (14) 285)

Extremely low frequency magnetic fields (ELF)
EEG spectral analysis; Evoked potential; Reaction time (Lyskov, E. (14) 227)

Flash evoked potential
Environmental enrichment; Evoked potential; Guideline test; Somatosensory evoked potential; Auditory brainstem response; Motor activity; Grip strength (Spencer, P.J. (14) 5)

Flash-evoked potential
4-*tert*-Butyltoluene; Acute exposure; Auditory-evoked potential; Body temperature; Diurnal variation; Event-related potential (Lund, S.P. (14) 41)

Grip strength
Environmental enrichment; Evoked potential; Guideline test; Flash evoked potential; Somatosensory evoked potential; Auditory brainstem response; Motor activity (Spencer, P.J. (14) 5)

Guideline test
Environmental enrichment; Evoked potential; Flash evoked potential; Somatosensory evoked potential; Auditory brainstem response; Motor activity; Grip strength (Spencer, P.J. (14) 5)

Habituation
Electrodermal activity; Orienting response; Stimulus intensity; Stimulus novelty (Barry, R.J. (14) 249)

Heart rate
Anxiety; Blood pressure; Epinephrine; Exercise; Mood; Norepinephrine; (Human) (Szabo, A. (14) 285)

Human brain
Prefrontal cortex; Implanted electrode; Neuronal activity; Language; Cognitive task; Semantic encoding (Abdullaev, Y.G. (14) 167)

Impedance cardiography
Cardiovascular reactivity; Long-term stability (Llabre, M.M. (14) 241)

Implanted electrode
Human brain; Prefrontal cortex; Neuronal activity; Language; Cognitive task; Semantic encoding (Abdullaev, Y.G. (14) 167)

Information processing
P300; Event-related potential; Aging (Dujardin, K. (14) 255)

Interaction
Solvent; Ototoxicity; Rat; Combined effect (Rebert, C.S. (14) 49)

Intertrial interval
Recovery; Amplitude; Electrodermal response; Methodology; Repeated trial; Baseline (Breault, C. (14) 75)

Language
Human brain; Prefrontal cortex; Implanted electrode; Neuronal activity; Cognitive task; Semantic encoding (Abdullaev, Y.G. (14) 167)

Law of initial values
Computer simulation (Jamieson, J. (14) 233)

Lead
Brainstem auditory evoked potential; Central nervous system dysfunction; Subclinical neuropathy; Mercury (Discalzi, G. (14) 21)

Long-term stability
Cardiovascular reactivity; Impedance cardiography (Llabre, M.M. (14) 241)

Mercury
Brainstem auditory evoked potential; Central nervous system dysfunction; Subclinical neuropathy; Lead (Discalzi, G. (14) 21)

Metabolism
Speech; Emission tomography; Aphasia (Tamas, L.B. (14) 199)

Methodology
Intertrial interval; Recovery; Amplitude; Electrodermal response; Repeated trial; Baseline (Breault, C. (14) 75)

Middle latency auditory-evoked potential
Yoga; Modifications of neural processing in yoga; Conscious alteration of breathing (Telles, S. (14) 189)

Model-comparator theory
Passive processing; Active processing; Context; Dipole trajectory; Vector magnitude (Clifford, Jr., J.O. (14) 209)

Modifications of neural processing in yoga
Middle latency auditory-evoked potential; Yoga; Conscious alteration of breathing (Telles, S. (14) 189)

Mood
Anxiety; Blood pressure; Epinephrine; Exercise; Heart rate; Norepinephrine; (Human) (Szabo, A. (14) 285)

Motor activity
Environmental enrichment; Evoked potential; Guideline test; Flash evoked potential; Somatosensory evoked potential; Auditory brainstem response; Grip strength (Spencer, P.J. (14) 5)

Multichannel EEG
Space-oriented EEG segmentation; Adaptive segmentation; Classification of field map configuration; Brain functional microstate (Wackermann, J. (14) 269)

Neuronal activity
Human brain; Prefrontal cortex; Implanted electrode; Language; Cognitive task; Semantic encoding (Abdullaev, Y.G. (14) 167)

Norepinephrine
Anxiety; Blood pressure; Epinephrine; Exercise; Heart rate; Mood; (Human) (Szabo, A. (14) 285)

Orienting response
Electrodermal activity; Stimulus intensity; Stimulus novelty; Habituation (Barry, R.J. (14) 249)

Ototoxicity
Solvent; Rat; Combined effect; Interaction (Rebert, C.S. (14) 49)

P300
Prefrontal; Event-related potential Stimulus categorization (Nasman, V.T. (14) 61)

Event-related potential; Aging; Information processing (Dujardin, K. (14) 255)

Passive processing
Model-comparator theory; Active processing; Context; Dipole trajectory; Vector magnitude (Clifford, Jr., J.O. (14) 209)

Prefrontal
Event-related potential; P300; Stimulus categorization (Nasman, V.T. (14) 61)

Prefrontal cortex
Human brain; Implanted electrode; Neuronal activity; Language; Cognitive task; Semantic encoding (Abdullaev, Y.G. (14) 167)

Rat
Ethanol; Visual evoked potential; Body temperature (Boyes, W.K. (14) 27)

Solvent; Ototoxicity; Combined effect; Interaction (Rebert, C.S. (14) 49)

Reaction time
Extremely low frequency magnetic fields (ELF); EEG spectral analysis; Evoked potential (Lyskov, E. (14) 227)

Recovery
Intertrial interval; Amplitude; Electrodermal response; Methodology; Repeated trial; Baseline (Breault, C. (14) 75)

Repeated trial
Intertrial interval; Recovery; Amplitude; Electrodermal response; Methodology; Baseline (Breault, C. (14) 75)

Semantic encoding
Human brain; Prefrontal cortex; Implanted electrode; Neuronal activity; Language; Cognitive task (Abdullaev, Y.G. (14) 167)

Solvent
Ototoxicity; Rat; Combined effect; Interaction (Rebert, C.S. (14) 49)

Somatosensory evoked potential
Environmental enrichment; Evoked potential; Guideline test; Flash evoked potential; Auditory brainstem response; Motor activity; Grip strength (Spencer, P.J. (14) 5)

Space-oriented EEG segmentation
Adaptive segmentation; Multichannel EEG; Classification of field map configurations; Brain functional microstate (Wackermann, J. (14) 269)

Speech
Metabolism; Emission tomography; Aphasia (Tamas, L.B. (14) 199)

Stimulus categorization
Prefrontal; Event-related potential; P300 (Nasman, V.T. (14) 61)

Stimulus intensity
Electrodermal activity; Orienting response; Stimulus novelty; Habituation (Barry, R.J. (14) 249)

Stimulus novelty
Electrodermal activity; Orienting response; Stimulus intensity; Habituation (Barry, R.J. (14) 249)

Subclinical neuropathy
Brainstem auditory evoked potential; Central nervous system dysfunction; Lead; Mercury (Discalzi, G. (14) 21)

Total peripheral resistance
Cardiovascular reactivity; Blood pressure; Cardiac output (Sherwood, A. (14) 81)

Vector magnitude
Model-comparator theory; Passive processing; Active processing; Context; Dipole trajectory (Clifford, Jr., J.O. (14) 209)

Visual evoked potential
Ethanol; Body temperature; Rat (Boyes, W.K. (14) 27)

Yoga
Middle latency auditory-evoked potential; Modifications of neural processing in yoga; Conscious alteration of breathing (Telles, S. (14) 189)
